Dear Campus Families,

Over the past few years we have written many newsletter articles with regards to parking and general traffic safety around our Campus. With the increased volume of traffic over the recent months in the administration car parks, the safety of students is being jeopardised. In order to restore overall safety and access for staff to the car parks, a boom gate has been installed over the school holidays at the main entrance of the Campus. **General access will be restricted from Monday 9th February 2015, between 8.15am - 9.15 am and 2.15pm - 3.15pm** when traffic is particularly busy.

Whilst we appreciate that this initiative will cause some inconvenience to some people, the safety and wellbeing of our students and all who use the car park is paramount. Families are encouraged to utilise the ‘kiss and drop’ zones at the front of each school. These zones allow you to drop off (not park) and pick up your child within a 2 minute time frame. Catherine McAuley students will be able to access the School grounds via a new gate in the Adams Road fence, walk safely across the ‘Zebra’ crossing and enter the main gate (see map on the back).

Drivers with disability permits are asked to present their permit at the respective front office for further assistance. We are committed to ensuring our children are safe, particularly during drop off and pick up times and thank you for your cooperation and support in placing the safety of our children first.
